EMF SAFE EVENT

To help everyone feel **safe and healthy** at this conference, **Weston A. Price** teamed up with **Essential Energy**. Their special **Geofield EMF Conditioner** helps protect this whole event—and even up to **two miles around!** It works by boosting natural light energy to help your body feel better, reduce stress from EMFs, and give your body **more strength and energy**.

This powerful device has been featured **twice** on the podcast *Conversations with Dr. Cowan and Friends* (Episodes #52 and #85 with Dr. Will Winter). It's **trusted by over 10,000 people**, used on **20 million acres of farmland**, and chosen by many **health clinics and events**.

If you want to **feel great and stay strong** in today's world filled with artificial EMFs, **Essential Energy** is **here to help you thrive**.
