Materia Medica

to stagnate in the capillaries, causing blueness, coldness, and ecchymosis. Body becomes blue, icy-cold. Bacteria find a rich soil in the nearly lifeless blood stream and sepsis and typhoidal state ensues.

A lowered vital power from loss of fluids, after drugging; after other diseases; in old people with venous congestions; states of collapse in cholera, typhoid; these are some of the conditions offering special inducements to the action of Carbo veg. The patient may be almost lifeless, but the head is hot; coldness, breath cool, pulse imperceptible, oppressed and quickened respiration, and must have air, must be fanned hard, must have all the windows open. This is a typical state for Carbo veg. The patient faints easily, is worn out, and must have fresh air. Hæmorrhage from any mucous surface. Very debilitated. Patient seems to be too weak to hold out. *Persons who have never fully recovered from the effects of some previous illness.* Sense of weight, as in the head (occiput), eyes and eyelids, before the ears, in the stomach, and elsewhere in the body; putrid (septic) condition of all its affections, coupled with a burning sensation. General venous stasis, bluish skin, limbs cold.

**Mind.**—Aversion to darkness. Fear of ghosts. Sudden loss of memory.

**Head.**—*Aches from any over-indulgence.* Hair feels sore, falls off easily; scalp itches when getting warm in bed. Hat pressed upon head like a heavy weight. Head feels heavy, constricted. Vertigo with nausea and tinnitus. Pimples on forehead and face.

**Face.**—Puffy, cyanotic. Pale, hippocratic, cold with cold sweat; blue. [*Cup.*; *Opium.*] Mottled cheeks and red nose.

**Eyes.**—Vision of black floating spots. Asthenopia. Burning in eyes. Muscles pain.

**Ears.**—Otorrhœa following exanthematous diseases. Ears ary. Malformation of cerumen with exfoliation of dermoid layer of meatus.

**Nose.**—*Epistaxis in daily attacks, with pale face.* Bleeding after straining, with pale face; tip of nose red and scabby, itching around nostrils. Varicose veins on nose. Eruption in corner of *alæ nasi*. Coryza with cough, especially in moist, warm weather. Ineffectual efforts to sneeze.

**Mouth.**—Tongue coated white or yellow brown, covered with *aphthæ*. Teeth very sensitive where chewing; gums retracted and bleed easily. Blood oozing from gums when cleaning teeth. Pyorrhœa.

**Stomach.**—*Eructations, heaviness, fullness, and sleepiness; tense from flatulence, with pain; worse lying down.* Eructations after eating and drinking. Temporary relief from belching. Rancid, sour, or putrid eructations. Waterbrash, asthmatic breathing from flatulence. Nausea in the morning. Burning in stomach, extending to back and along spine. *Contractive pain extending to chest, with distention of abdomen.* Faint gone feeling in stomach, not relieved by eating. Crampy pains forcing patient to bend double. Distress comes on a half-hour after eating. Sensitiveness of epigastric region. *Digestion slow; food putrefies* before it digests. Gastralgia of nursing women, with excessive flatulence, sour, rancid belching. Aversion to milk, meat, and *fat things.* *The simplest food distresses.* Epigastric region very sensitive.

**Abdomen.**—Pain as from lifting a weight; colic from riding in a carriage; excessive discharge of fetid flatus. Cannot bear tight clothing around waist and abdomen. Ailments accompanying intestinal fistulæ. *Abdomen greatly distended;* better, passing wind. *Flatulent colic.* Pain in liver.

**Rectum and Stool.**—Flatus hot, moist, offensive. Itching, gnawing and burning in rectum. *Acrid, corrosive moisture from rectum.* A musty, glutinous moisture exudes. Soreness, itching moisture of perineum at night. Discharge of blood from rectum. Burning at anus, burning varices. [*Mur. ac.*] Painful diarrhœa of old people. Frequent, involuntary cadaverous-smelling stools, followed by burning. White hæmorrhoids; excoriation of anus. *Bluish,* burning piles, *pain* after stool.

**Male.**—Discharge of prostatic fluid at stool. Itching and moisture at thigh near scrotum.

**Female.**—Premature and too copious menses; pale blood.

# Arnica Montana

A scenic landscape featuring rolling green hills under a bright blue sky with scattered white clouds. A dirt road winds through the fields on the left side. In the foreground, there is a field of tall, green grasses. A single tree stands on a small hill in the middle ground, and a line of trees is visible in the distance on the right.

*Bryonia*

A close-up photograph of a Bryonia plant. The image shows several green, spherical, hairy buds on short stems. A prominent, thick, green tendril is coiled into a spiral on the right side of the frame. The background is a soft, out-of-focus green. The word "Bryonia" is written in a white, cursive font in the upper right quadrant.

# Bryonia

**Worse from movement**

A close-up photograph of a Bryonia plant. The image shows several green, spherical buds on thin stems, with curly tendrils extending from the buds. The background is a soft, out-of-focus green. The word "Bryonia" is written in a white, cursive font in the upper right quadrant.
